

FISH CLUB MINUTES
MARCH 2, 2006

Meeting called to order at 7:00 P.M. with W. Raduns, A. Mesnard, R. Dobrunz, W. Holt, R. Willer, R. Stone, T. Kozoil, W. Haas, M. Beavers, D. Skadow, D. Wagner, R. Billings, J. Froelich, O. Bergsmith, M. Bierwalters, J. Harper, R. Hammerquist and J. Folkerts in attendance.

Minutes of February meeting approved as corrected.

Treasurer's report:

\$5249.50 in treasury at time of meeting.

Old business:

Chairman Folkerts commented that he has looked into the fertilizer problem and has found out that non-phosphorus fertilizers are available to consumers. Marty stated that local contractors have refrained from using fertilizers that contain phosphorus.

The concrete blocks that the fish club is planning to place in the lake will probably be done next winter. The location will be determined this summer using GPS and a range finder.

Marty will try and get Harting Park shelter for the kid's Fish Seminar.

A long discussion took place concerning lake weeds. The consensus being that representatives of the fish club will be observing areas where weeds are being treated. There is great concern that with the low water level, which will encourage weed growth, that spraying could have far reaching effects as far as fish populations.

New business:

Chairman Folkerts talked about the Madison Boat Show and the many features there, in contrast to the Rockford Boat Show, which was a disappointment.

Meeting adjourned at 7:45.

Apologies for any misspelled names.

Walter Raduns
Acting secretary
