

Fish Meeting Minutes - December 6, 2007

Minutes were accepted as read.

Old Business - Stocking of Fish -

3000 Walley added successfully, some members were there to see. COST OF \$6580.00 200 Northern added successfully, in November. COST OF \$900.00 Lake Summerset Association gave \$7500.00 towards fish. I understood treasurer to say Fish Club spent total of \$486.20 but when I did the math it was  $6580+900=7480$  A total figure of \$7966.20 was verbalized.  $7966.20-7480=486.20$  I thought I heard treasurer to say Fish Club spent \$466.20 (above 486.20) Discrepancy.....????? Fish Club DDA has new balance of \$5946.36 per treasury report. Short Discussions on ice fishing and lake conditions.

New Business

Name and lot number should be in Ice Shannies Red tags are permanent to go to house Different color in car windows for ice fishing Place reminder in newspaper to remind guest to buy permit to ice fish Jeff mentioned Beach 2 not plowed Signs placed at Beach 2 and 2 Marinas per Wally Jeff reported that Fish Club Web Site is getting a lot of hits on web page just getting started... will be adding web sites to visit for cool fishing stuff to buy. ie: iceshanny.com Jeff going in few weeks to Lake Shabana Hageman presentation was good. It was laid out and we have the money. Pictures of artificial cribs made of PVC by Jeff or Wally were shown. Article spoke of catching 2 – 3 fish at each site or each ice hole and then move on.

Wally asked the question asked how many guys plan on fishing Wisconsin by Wally. Due to VHS WI is telling fishermen not to bring minnows, worms or any "live bait" from IL to WI. VHS Came from ocean – 1930 trout, salmon, England, Scotland.... Started in salt water. The fish have open sores, ragged edges, looks like it has been attacked. Now it is hitting Muskies and Walley. VHS flourishes in 2 -3 centigrade water temps. This is the time of year the disease hits fish. WI or MI DNR website is where we can find mor info on VHS. WI is requiring you wash your boat and trailer down with ½ C bleach? To 5 gallons of water or you will get a fine. Right now VHS is in the Great Lakes System; Fox River, Lake Winnebago. Wally reports if you go to WI and purchase Fish License, you will get information about VHS and not bringing live bait into WI. Canada is same.

Club members brought up question about chartering a fishing trip someplace. Nothing decided. Members recalled long time ago they planned a Salmon trip, but it was rained out. 6 people tops to a boat, @ \$100 a piece. Discussion about shorelines that are attractive to fish. Carp like straight sea walls. There is a website of vegetation and weeds that make a shoreline more attractive to fish. Member brought up Asian Carp are making their way up Mississippi River.

Motion made to adjourn the meeting. Motion second. Fish Club Meeting adjourned. Treats enjoyed, courtesy of Karen Mazzearelli. Holiday wishes exchanged.

Respectfully Submitted by Roxane Rice, Fish Club Secretary.
